You will need:	
Celebr8 Fresh Start Mini Paper Pack	Double-sided tape (DST)
Celebr8 Mini Album kit	Black cardstock x 2
Brilliance Starlite Black	50cm twine for tags
Hole punch	Foam tape 3mm
Paper trimmer / craft knife	Small, sharp scissors for fussy cutting
Bone folder	Scoreboard

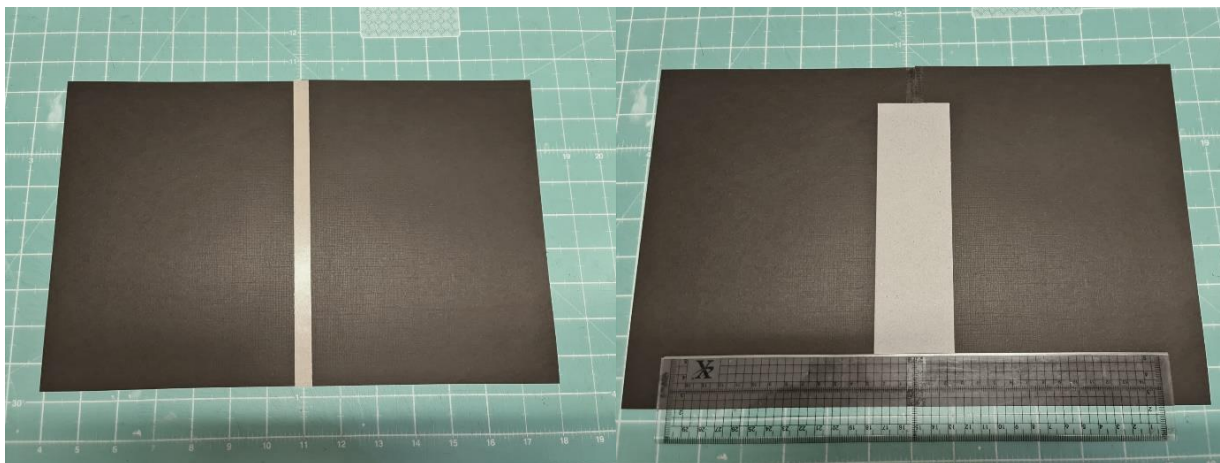

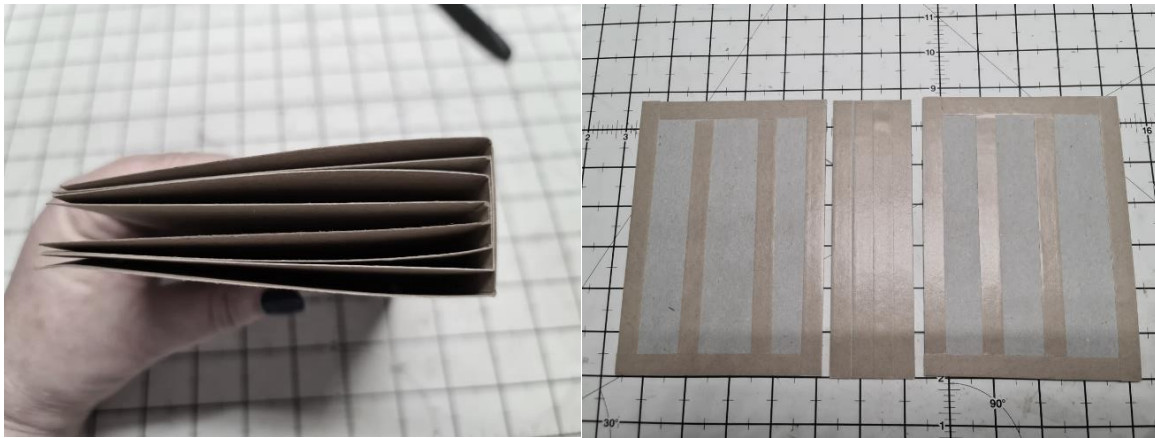

Important Information, please read carefully before you start.

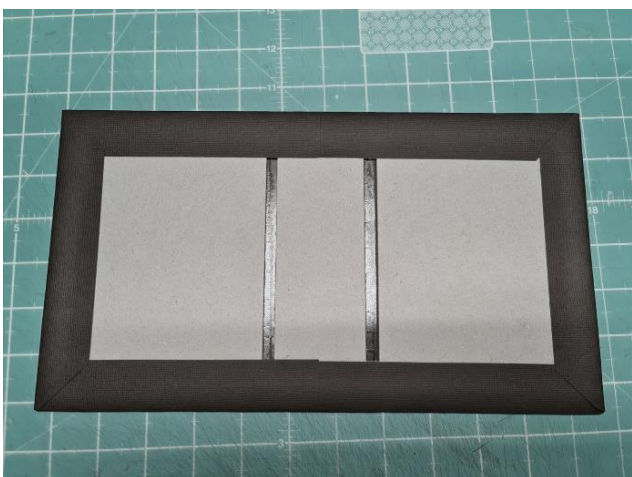

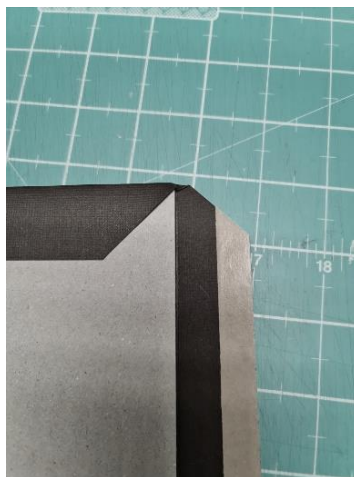

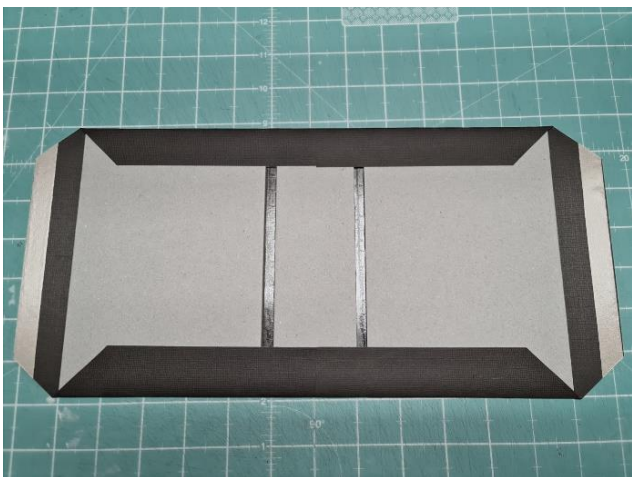

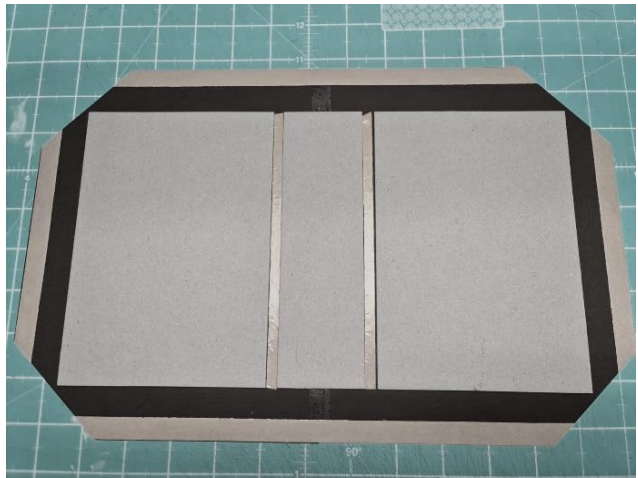

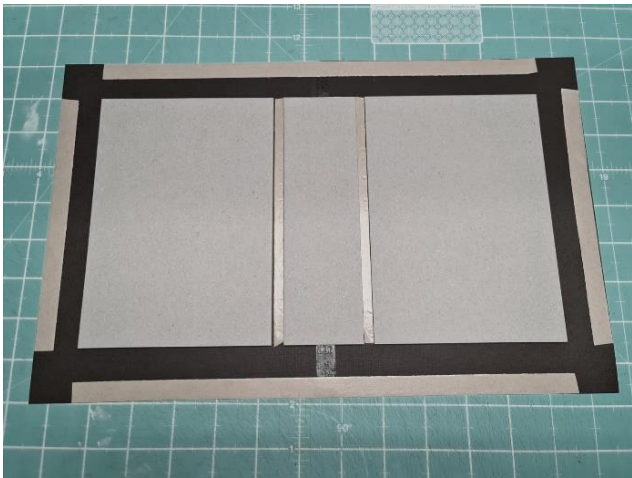

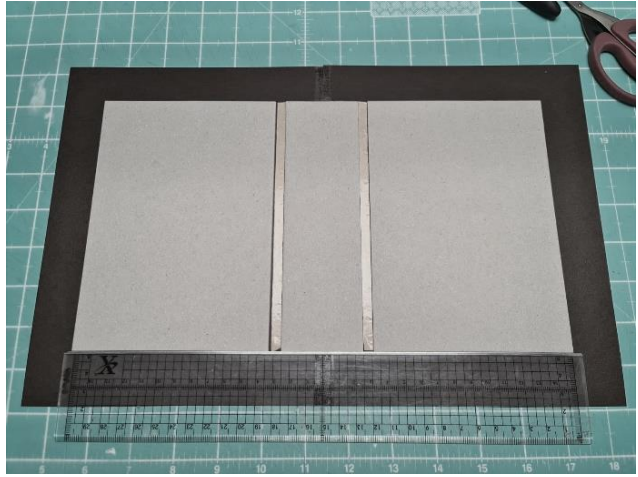

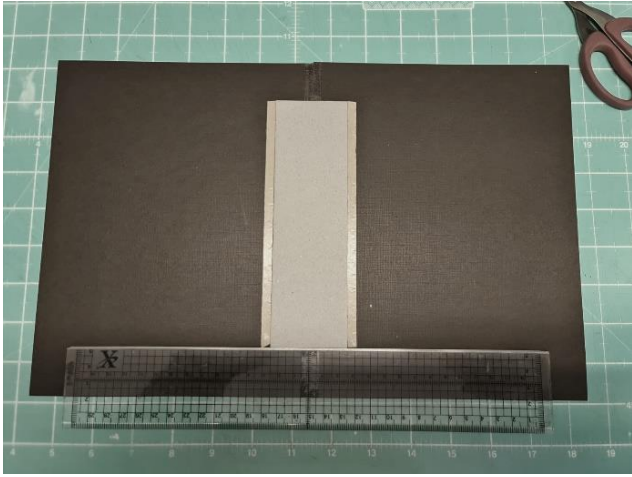

- All measurements are given in **centimetres**.
- Measurements are given **width x height**.
- Cut all your base pages first and keep all the bits for matting and making tags etc.
- **Please note which side of the pattern paper is used! Large format photos of each page can be found at the end of the cutting guide.**
- Fussy cut one of each side of the fussy cutting elements sheets PP5416 and PP5419 (there are two of each sheets).
- Cut individual word strips from PP5417 (use only 1 sheet).
- Fussy cut elements from PP5418 (use only 1 sheet).
- Ensure that you use good quality double-sided tape.
- **DST = double-sided tape** **AS = Advertising strip (bar code)**
- **RHS = Right hand side** **LHS = Left hand side**

Album Cover

- From black cardstock, cut 2 identical pieces measuring 18cm x 23cm.
- Join these 2 pieces of cardstock together to create a single piece of cardstock measuring 36cm x 23cm.
- Apply DST around the outside edge of the hardboard as well as a few strips in the centre of the hard board.
- Starting with the spine, place it in the centre (top and bottom and left to right) of this newly created “outer cover”, then add a piece of 6mm tape on either side of the spine (you need this gap to stop the spine from tearing) before attaching the covers in line with the base of spine.
- Pop some DST all around the outer edge of the cardstock. Mitre corners, remove DST and fold cardstock in to complete the outer cover.

- From PP5413, cut a piece that measures 15cm x 16,7cm for the front inside cover and stick DST around the outer edges on the wrong/plain side.
- From PP5412, cut a piece that measures 15cm x 16,7cm for the back inside cover and stick DST around the outer edges on the wrong/plain side.
- To stop your inside covers from bulging, you will need to do the following:
 - Add a strip of tape on each side of the 6mm DST on the hard board (4 pieces in total running from top to bottom of the spine).
 - Add another strip of tape to the spine.
 - Add 2 strips of tape to the inside covers to assist with anchoring the pattern paper.
- Carefully remove the DST from the hardboard, including the DST from the 6mm gap between the hardboard and the pattern paper, and attach the inside covers to both front and back.
- Make up the base pages as per the instructions and adhere to the mini album.
- See photos below.

Decorating the Front Cover and spine

- From PP5411, cut a piece of patterned paper measuring 12cm x 16,5cm. Adhere to front of mini album. Add fussy cutting elements. I raised the frame to create depth and interest and added a few fussy cut flowers.

Inside Front Cover

- Using an off cut from PP5413, cut a piece measuring 13cm x 5,3cm (your height will be determined by the size of the off cut).
- Score at 1,5cm and 11,5cm on the 13cm side. Turn 90 degrees and score at 4cm on the 5,3cm side. Apply DST in the 1,5cm (1,3cm) areas created by the score lines on the right/patterned side of the paper. Mitre corners and adhere to album.
