Instructions to complete the layout:

1. Use a sanding block to sand all the edges of patterned papers, photo mats and fussy-cut images.
2. Prepare your chipboard elements: Apply white chalk ink to the required elements (ocean bliss, sand, sea, free & 2 x wavy borders). Use the blue & coral chalk inks to add colour – dab lightly on the top and bottom of the chipboards, then use a dauber or your finger to lightly blend the colours together, leaving a little white showing in the centre of each piece. Allow to dry before placing on layout.
3. I recommend using 2 sheets of plain white 12x12 cardstock as your background base – adhere all the cut strips to this base to ensure that your layout is the correct size.
4. Adhere the 2 x SUNKISSED (wood) strips to the extreme left and right of both background pages.
5. Cut the large wave element (cut from cover sheet) in half lengthways and adhere each half to the 2 woodgrain strips.
6. Adhere the 2 x BEACH BUM (dots) strips to the background (approx. 6cm from the left and right), to overlap the wave elements.
7. Adhere both SANDCASTLES (floral) strips flush at the bottom of both pages
8. Adhere the SUNKISSED (map) block to the left page, flush against the top and right sides, to overlap the dots strips slightly.
9. Adhere the BEACH BUM (floral collage on right) block to the right page, flush against the top and left sides, to overlap the dots strips slightly.
10. Now adhere the 2 wavy border strips horizontally to the joins between the pieces.
11. Adhere quote border strip to the left page, just above the wavy border strip.
12. Adhere your photo mats. Take note of some fussy-cut elements that are tucked under the photo mats before sticking them down. The 2 x smaller blue mats are on the left page, approx. 1/2cm from the right and 6cm from the bottom. The large peach mat is also on the left page, approx.

1cm from the top and 8cm from the right. The remaining square peach photo mat is on the right page, approx. 6cm from the bottom and 1/2cm from the left.

13. Adhere the large fussy-cut lighthouse to the left page. Create a collage of fussy-cut elements, along with a piece of the blue mesh (from the embellishment pack) below this lighthouse, and above the border strip. Raise the small jar element with foam tape and tuck a fold of ribbon under the left side. Adhere inked chipboard title.
14. To create the jar shaker box: Cut out the centre (white part) of the larger fussy-cut jar using a kraft knife. Adhere a piece of acetate to the back to cover the opening just cut out. Place foam tape all around the edges of this acetate, just on the inside edge so that you cannot see the foam tape from the front side – do not leave any gaps between the pieces of foam tape. Now sprinkle some white glitter (found in the embellishment pack) and small charms onto the acetate. Adhere the 2nd piece of acetate to the foam tape to seal the shaker box.
15. Adhere this shaker box, along with a smaller jar cut-out, to the right page, tucking a piece of the blue mesh under the left side. Adhere fussy-cut octopus with foam tape.
16. Adhere the fussy-cut peach shell collage to the centre top of both pages. Add chipboard wavy border and whale element. Raise the turtle element with foam tape. Adhere 3x4 quote card to the right side.
17. Use the remaining fussy-cut elements and shell and metal charms to add finishing touches to your layout, raising some elements with foam tape for extra dimension.
18. Apply stickles to some of the images and elements for some extra sparkle and allow to dry.

Hope you have enjoyed completing this layout ☺

Love,

Juliet
