Instructions to complete the layout:

1. Use a sanding block to sand all the edges of patterned papers, photo mats and fussy-cut images.
2. Prepare your chipboard elements: Apply white chalk ink to the chipboard elements. Use the blue & coral chalk inks to add colour – dab lightly on the top and bottom of the chipboards, then use a dauber or your finger to lightly blend the colours together, leaving a little white showing in the centre of each piece. Allow to dry before placing on layout.
3. I recommend using 2 sheets of plain white 12x12 cardstock as your background base – adhere all the cut pieces to this base to ensure that your layout is the correct size.
4. Prepare the “stitched” blocks: Place the squares of paper (I have used 3 x coral cardstock pieces) on a foam mat. Use a stitching ruler and paper piercer to stitch a series of holes all around the pieces. If you do not have a stitching ruler, you can pierce along the top of a ruler, using the ruler guide to measure even gaps between the holes. Now use a gel pen to “join the dots: - drawing pen lines between each hole. This will create a faux-stitching effect.
5. Use all the cut blocks to create a “patchwork” effect for your background, varying the colours and patterns. Also include the lighthouse block on the right page.
6. Adhere ribbon and the quote strip to the left page, raising the quote strip with foam tape and tucking various fussy-cut elements above this strip.
7. Embellish some of the blocks with chipboards and fussy-cut elements, raising some with foam tape for extra dimension. Refer to the picture for placement. The rest of the blocks can be used to add photos, as many or as few as you like.

Hope you have enjoyed completing this layout ☺

Love,

Juliet
