

Celebr8 Thankful Heart Mini Album

Designed by Sandi Kok for Celebr8.

You will need:	
Celebr8 Thankful Heart Mini Paper Pack	Double-sided tape (DST)
Celebr8 Mini Album kit (Base album)	2 x Graphite cardstock
2 x Sunflower cardstock	A4 sheet acetate
Brilliance Galaxy Gold	1m Thin piece of white ribbon.
Scoreboard	Bone folder
Paper trimmer / craft knife	Small, sharp scissors for fussy cutting
1 x Small gold brad	1mm Foam tape for shaker box (cut in ½ lengthwise).

Important Information, please read carefully before you start.

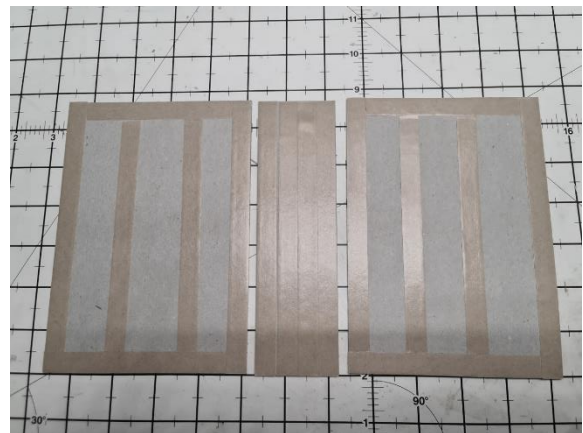

- All measurements are given in **centimetres**.
- Measurements are given **width x height**.
- Cut all your base pages first and keep all the bits for matting and making tags etc.
- **Please note which side of the pattern paper is used! Large format photos of each page can be found in the cutting guide.**
- Cut fussy cutting element sheets as follows:
 - PP6119 Fussy cut elements sheet – cut both sheets.
 - PP6118 Tags, circles and tabs – cut one sheet.
 - PP6114 Sentiments – choose a few from one of the sheets – I used the following:
 - The 3 sunflowers in a jug (pg 2)
 - Single sunflower on black script (pg 3)
 - The word “Love” (pg 12)
 - Use balance of paper for matting etc.
 - PP6116 Choose the Journaling cards that appeal to you. You will need to keep 2 of them as a strip (pg 13)
- Ensure that you use good quality double-sided tape.
- **DST = double-sided tape** **AS = Advertising strip (barcode)**
- **RHS = Right hand side** **LHS = Left hand side**
- **PP = Patterned Paper**

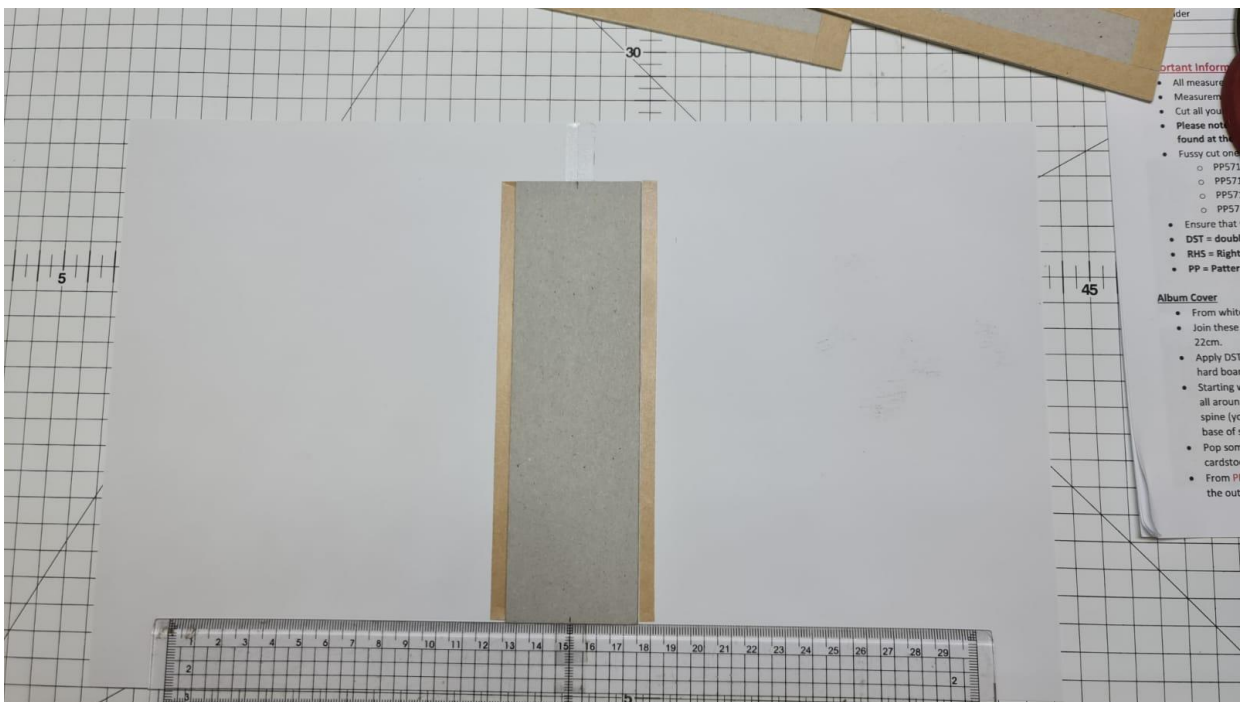

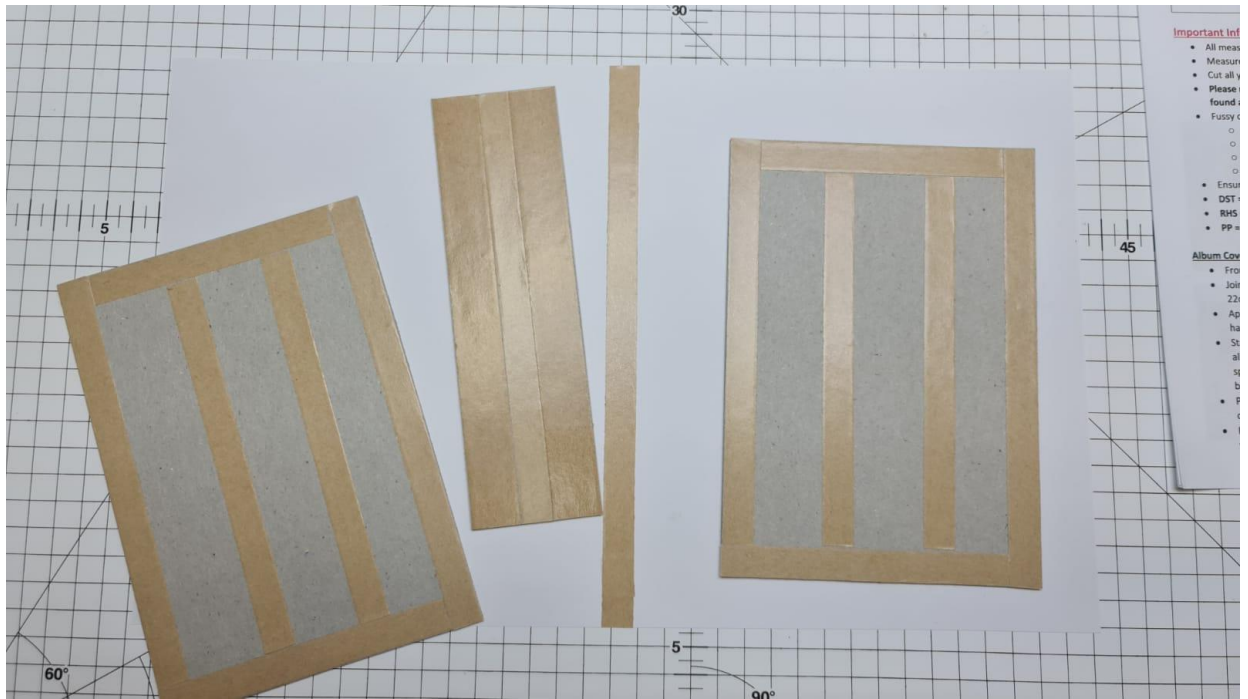

Album Cover (use photos below to assist)

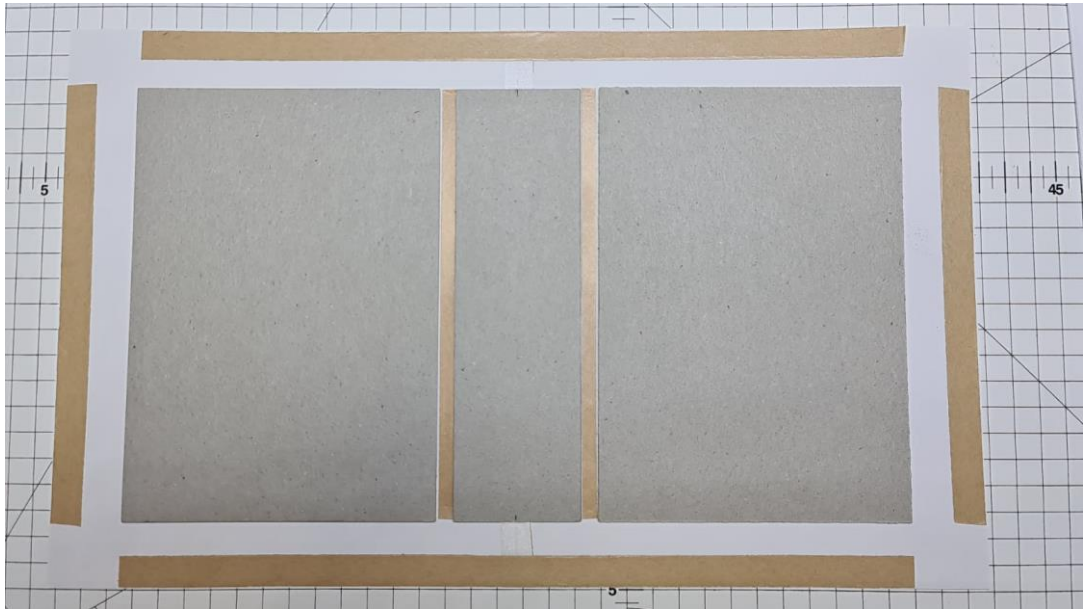

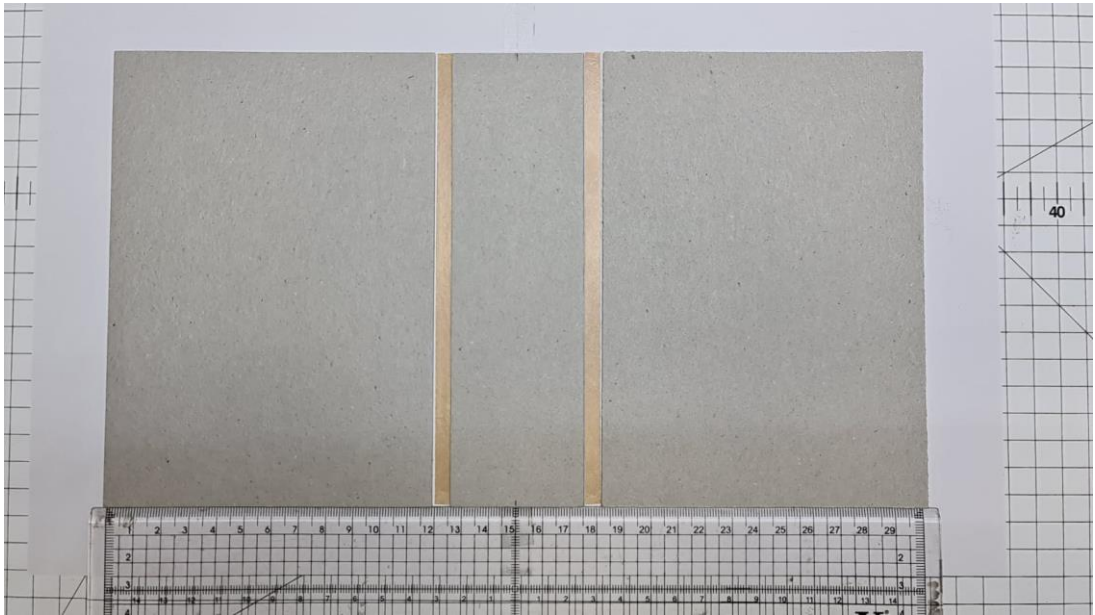

- From graphite cardstock, cut 2 identical pieces measuring **18cm x 22cm**.
- Join these 2 pieces of cardstock together to create a single piece of cardstock measuring 36cm x 22cm.
- Adhere DST around the outside edge of the hardboard as well as a few strips in the centre of the hardboard.
- Starting with the spine, place it in the centre (top and bottom and left to right {approx. 2cm border all around}) of this newly created “outer cover”, then add a piece of 6mm tape on either side of the

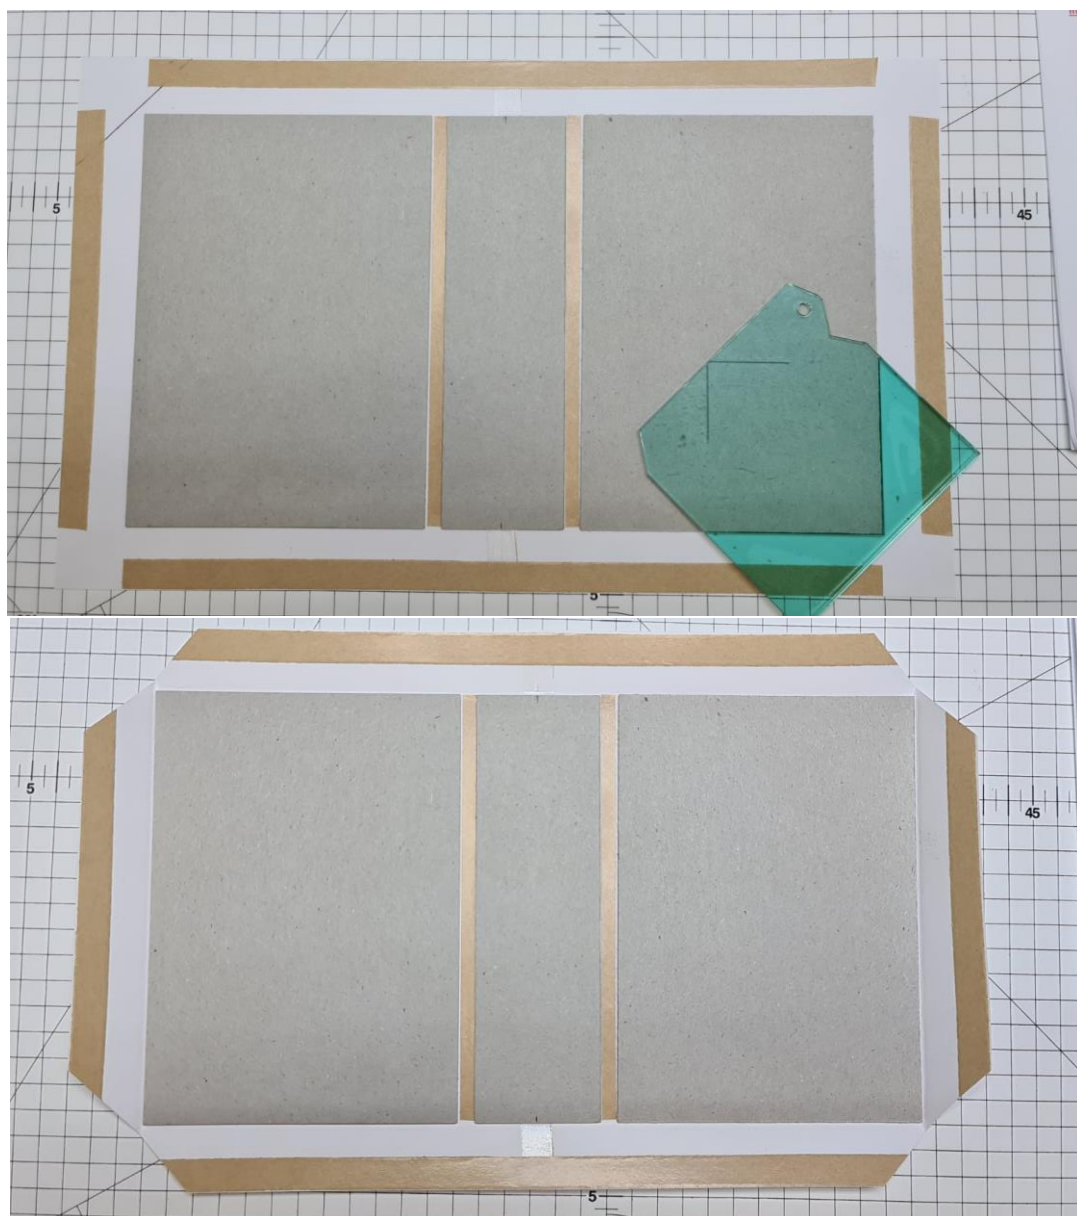

spine (you need this gap to stop the spine from tearing) before attaching the covers in line with the base of spine.

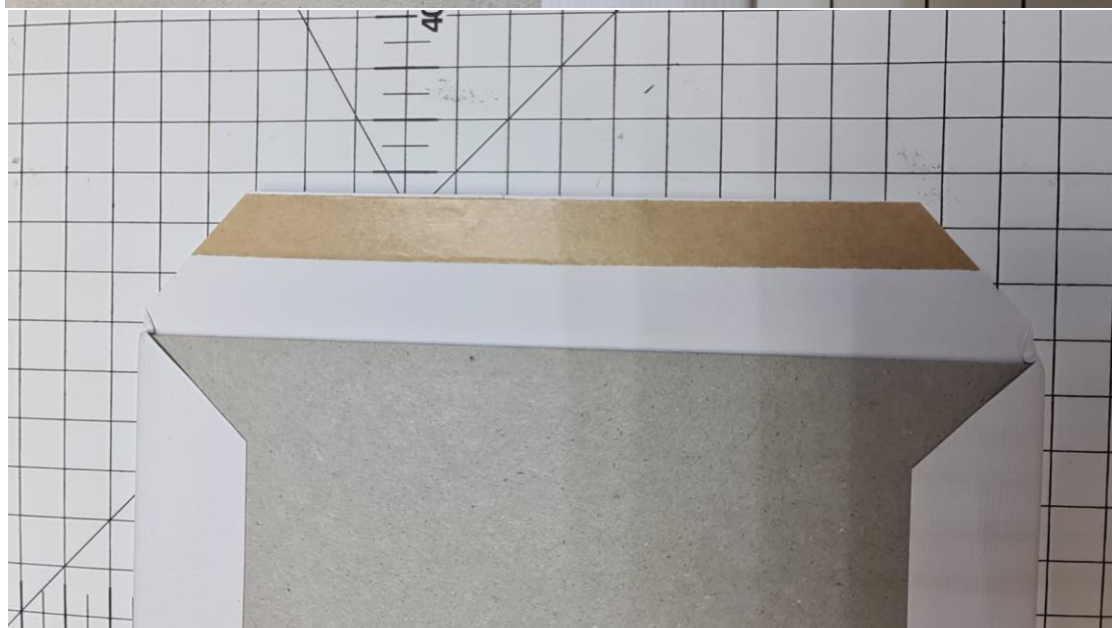

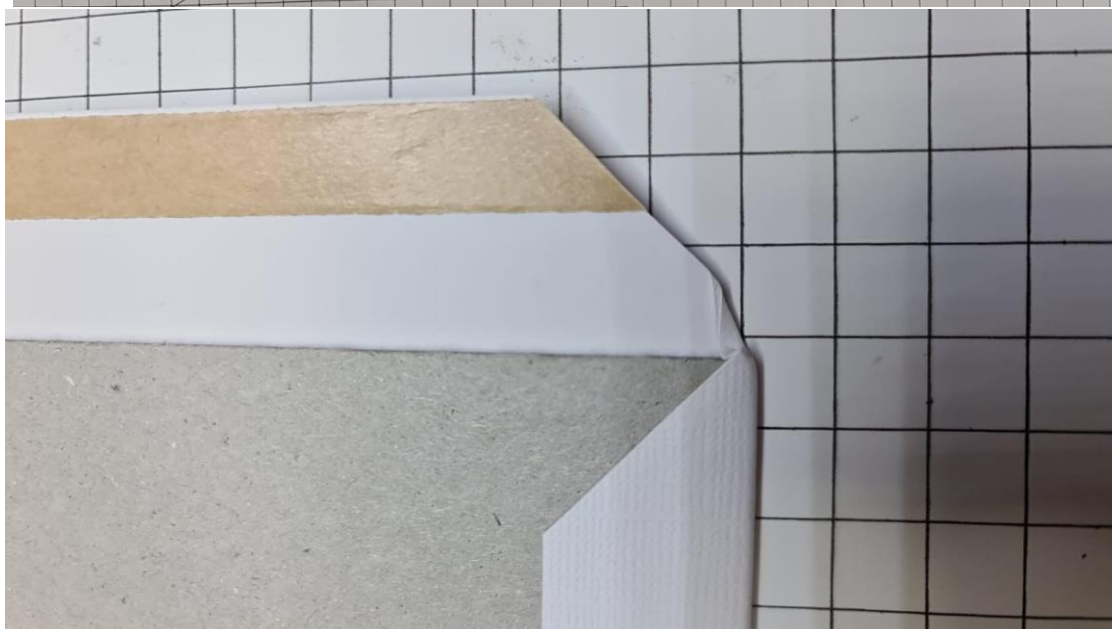

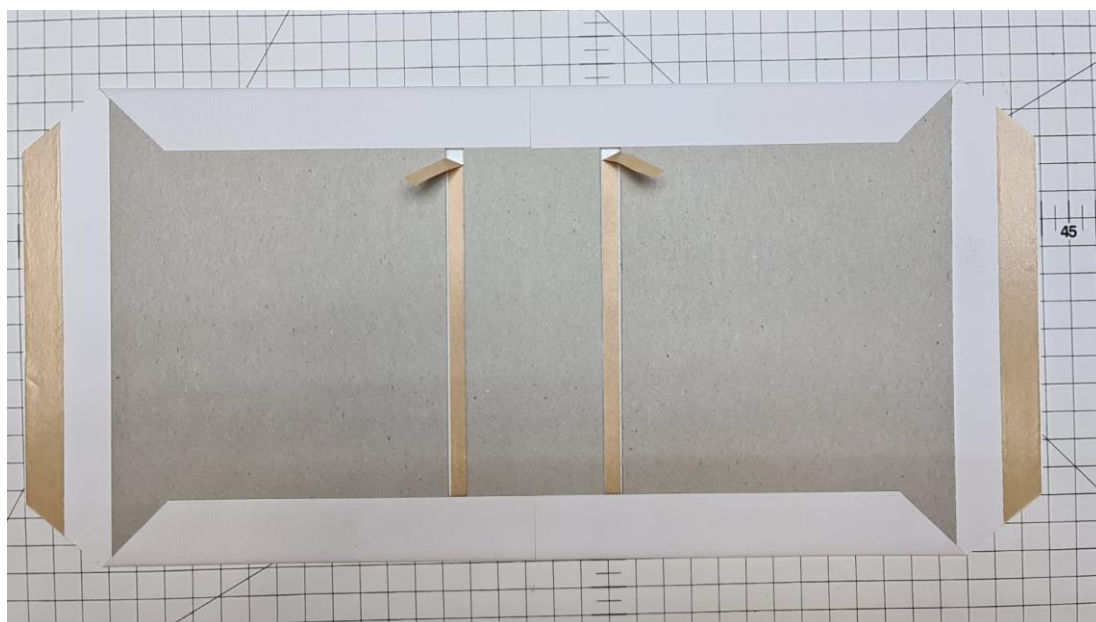

- Pop some DST all around the outer edge of the cardstock. Mitre corners, remove DST and fold cardstock in to complete the outer cover.
- From PP6109, cut a piece that measures 15cm x 16,7cm for the front inside cover and stick DST around the outer edges on the wrong/plain side. Make sure that you cut the paper so that you have the little image in your cut piece.
- From PP6108, cut a piece that measures 15cm x 16,7cm for the back inside cover and stick DST around the outer edges on the wrong/plain side. Make sure that you cut the paper so that you have the little image in your cut piece.
- To stop your inside covers from bulging, you will need to do the following:
 - Add a strip of 12mm tape on each side of the 6mm DST on the hard board (4 pieces in total running from top to bottom of the spine).
 - Add another strip of tape to the spine.
 - Add 2 strips of tape to the inside covers to assist with anchoring the pattern paper.
- Carefully remove the DST from the hardboard, including the DST from the 6mm gap between the hardboard and the pattern paper, and attach the inside covers to both front and back.
- Make up the base pages as per the instructions in the **Celebr8 Mini Album Kit** and adhere to the mini album.
- See photos below – (I have used white cardstock in the instructions, however, your will be using Graphite cardstock for your base album)

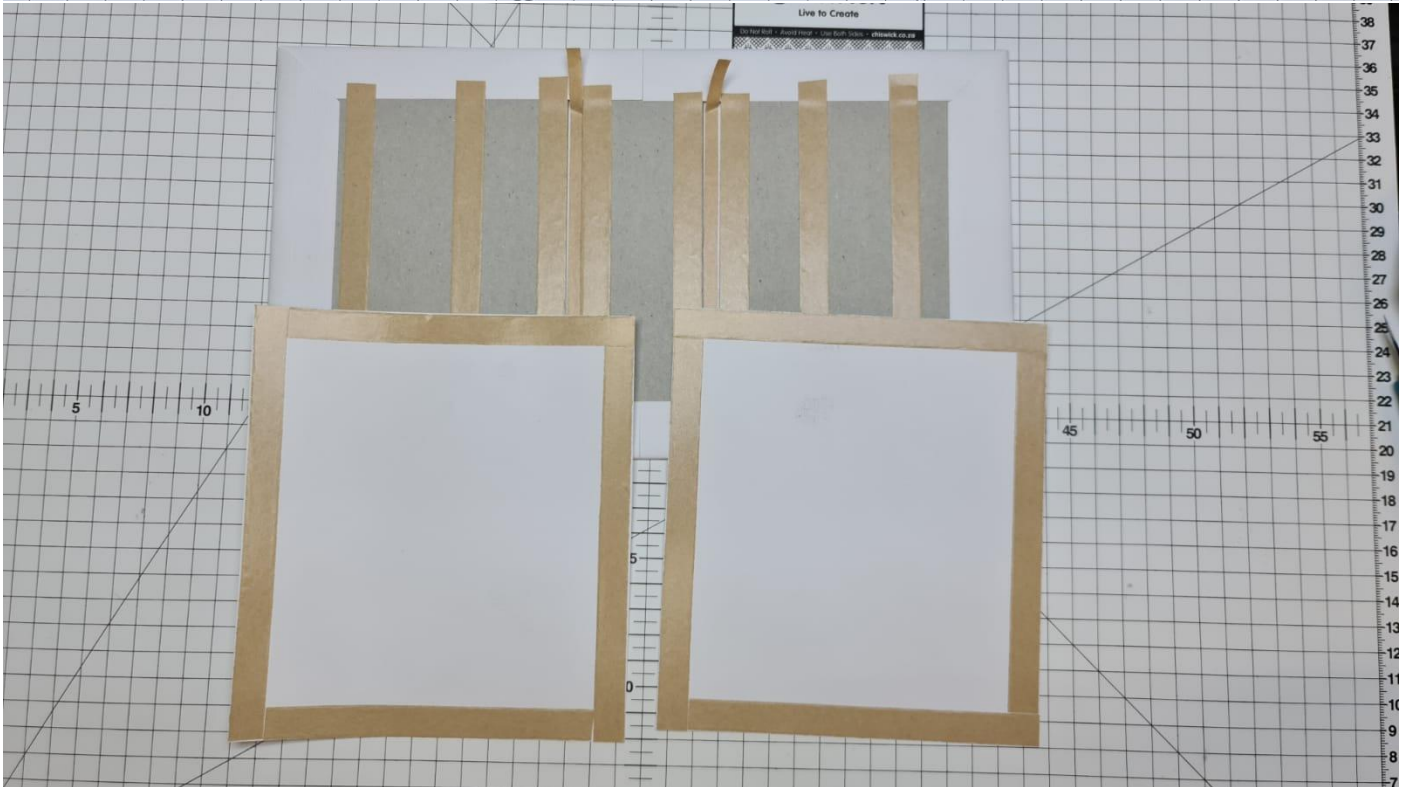

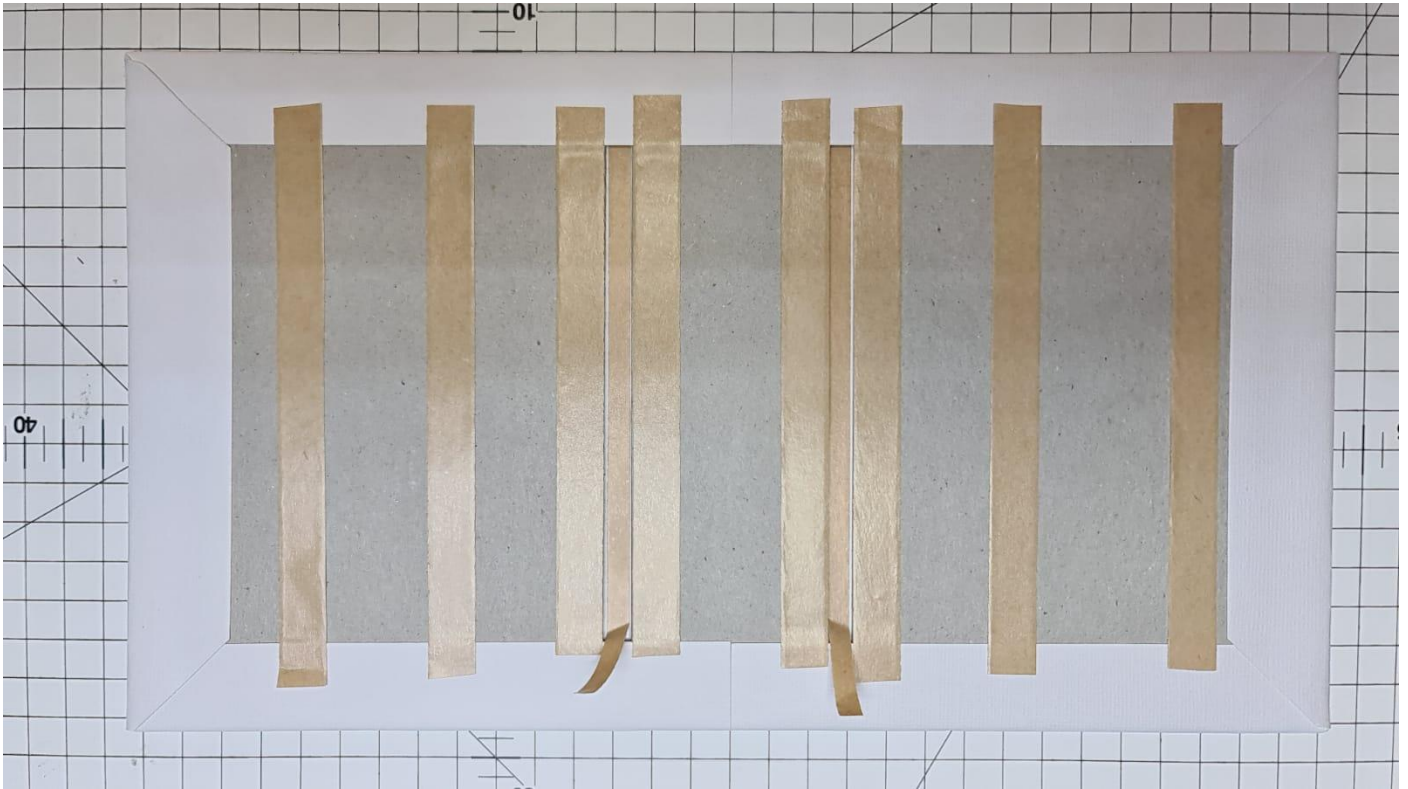

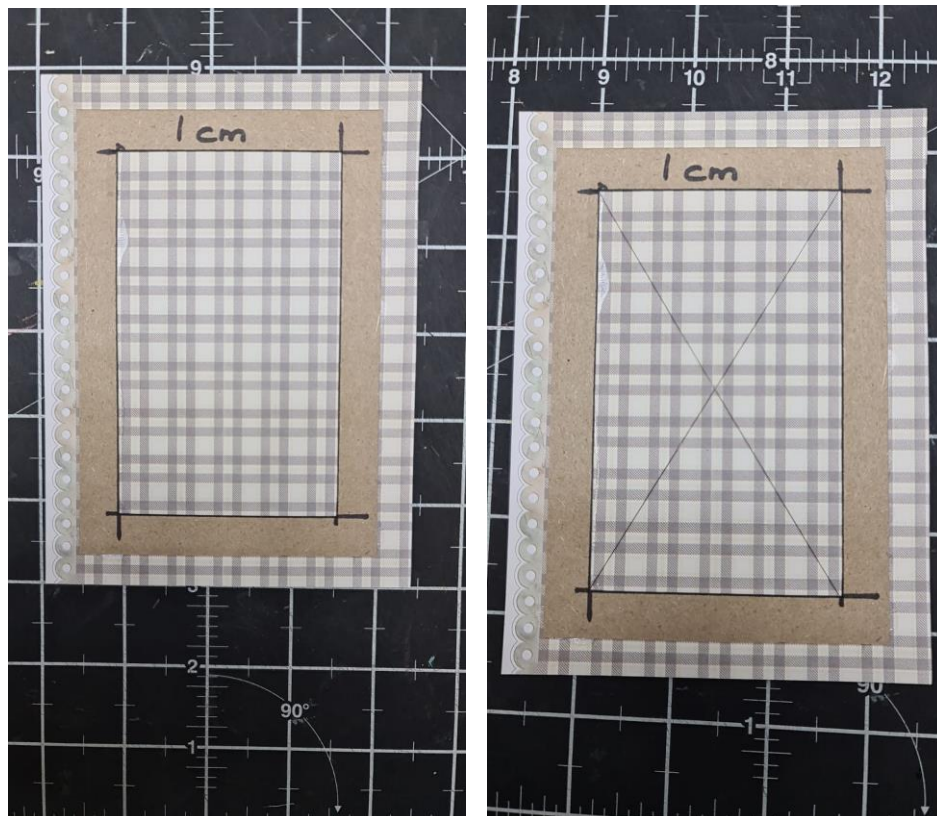

Decorating the Front Cover and spine

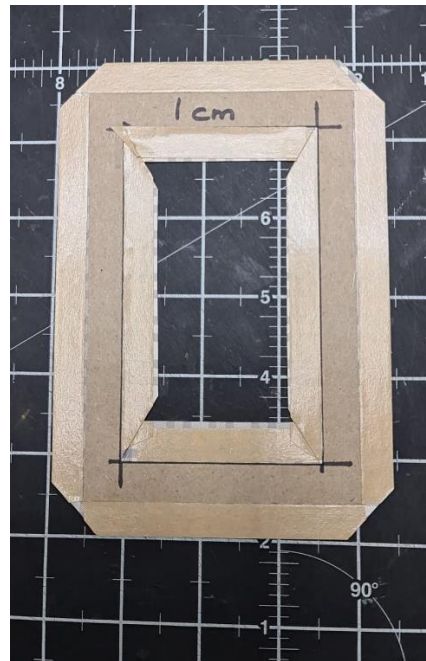

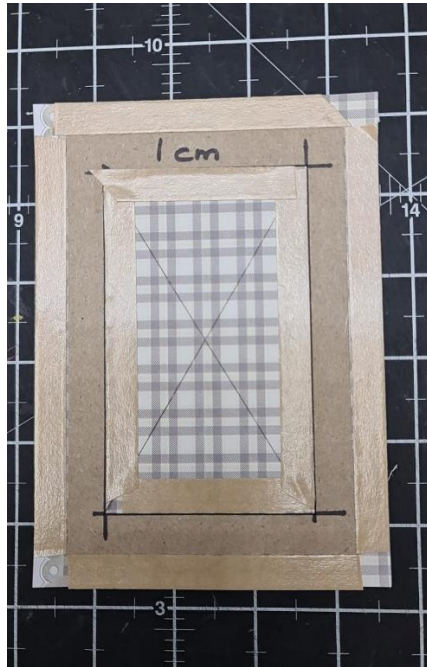

- From PP6111, cut a piece measuring 12cm x 16,5cm – this is your “base page”.
- Sunflower cardstock, cut a piece measuring 10cm x 14cm – this will form the mat to your frame.
- From kraft, cut a piece measuring 9cm x 13cm. Measure in 1cm from the outer edge and draw a line. Cut out the inner rectangle so that you are left with a frame.

- From PP6113, cut a piece measuring 12cm x 15cm. This will be used to cover your kraft paper frame. Stick your frame onto the wrong side of the piece of paper. Cut a diagonal from inner corner to inner corner as seen in

- Apply DST around the outer edge as well as the inner edge. Remove the excess paper from the middle of the frame as seen below. Mitre corners! Score around the outside and the inside of the kraft frame and then fold the PP inwards to create a frame – start with the long sides. Remember to “tuck” the corners so that you get a perfect finish!

- Cut a piece of acetate to 8,5cm 12,5cm. Adhere to the back of the frame using 1mm double-sided foam tape as seen below. I used a full 12mm piece along the bottom but cut the piece for the sides in half lengthwise. Once complete, adhere to front of album. Add one of the fussy cut elements of your choice as well as the chippie, “Something Beautiful”.

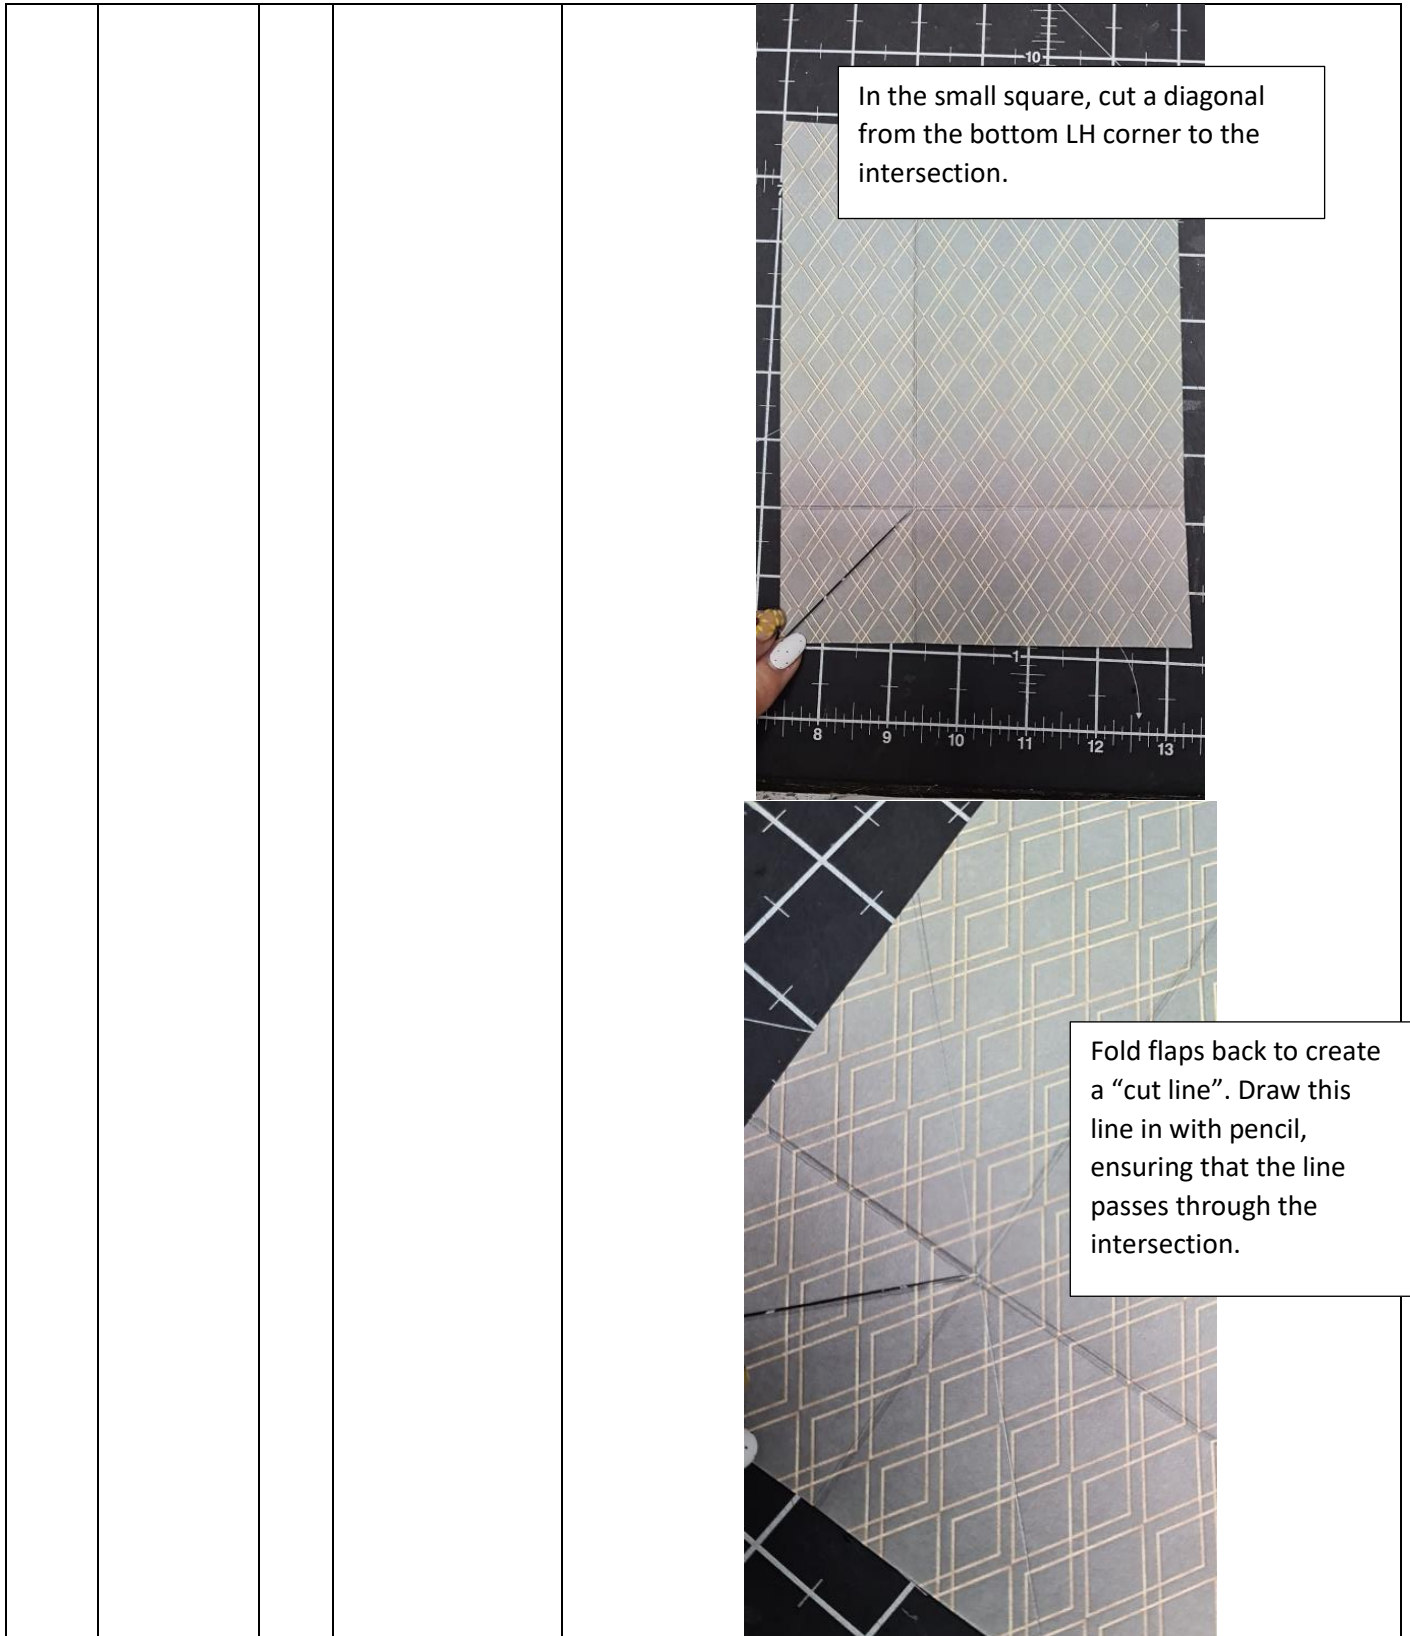

- From the white cardstock, cut a piece measuring 7cm x 12cm. Adhere a photo to both and the front of this piece so that you can change your cover simply by switching around the white cardstock mat.

Page no.	Pattern paper no.	No. to cut	Measurement	
1	PP6108	1	15cm x 14,7cm	Score at 5cm on the 15cm side.
	PP6111	1	3cm x 16,5cm	(Use the off cut from the front cover to cut this) Score at 1cm and 15,5cm on the 16,5cm side. Apply DST to the 1cm area created by the score line on the right side of the PP. To close off the pocket, apply a strip of DST to the LHS of the strip. Mitre corners. Fold in and tape to flap.  
2	PP6115	1	10cm x 14,7cm	Adhere to album. Leave the AS on as you will use the off cut on page 3.
	Sunflower cardstock	4	9cm x 10cm	Score at 1cm on the 10cm side. Add DST to the right side in the 1cm area created by the score line on each of the 4 pieces. Fold over to create a "hinge" to attach to your page. Start by attaching the top flap of the waterfall and then add each piece in turn.

				Create a closure using one of the sentiments, matted onto cardstock, and a brad. 
3	PP6115	1	13cm x 6,5cm	Use off cut from page 2 - Leave the AS on. Score at 1,5cm and 11,5cm on the 13cm side. Turn 90° and score at 5cm on the 6,5cm side. Add DST to the right side in the 1,5cm areas created by the score lines. Mitre corners and fold in sides, ready to attach to page.
	Sunflower Cardstock	1	9,5cm x 10cm	Stick pocket onto page 3 and then add sunflower mat. I also added a piece of patterned paper to tone down the yellow.
4	Sunflower cardstock	1	10cm x 14,7cm	Adhere flat to page 4.
	PP6117	3		Cut 3 strips of the “words”. Trim to fit the page so that they create a border. 
5	PP6117	1	10cm x 14,7cm	Adhere flat to page 5. Add a fussy cut element to create a tuck spot. Use journaling cards to create a photo mat.
6	PP6112	1	21cm x 14,7cm	DO NOT REMOVE THE ADVERTISING STRIP! With the AS up against the LHS of the scoreboard, score at 1cm and 11cm on the 21cm side. Apply DST to the 1cm area created by the

				score line (over the AS wording) to create a flap. Be careful when trimming to size that you don't cut the wording on the AS.... You will need to cut a bit from the top and a bit from the bottom of the page. 
7	PP6111	1	10cm x 14,7cm	Use off cut to create belly band.
	PP6111	1	2,5cm x 15cm	Score at 1cm and 14cm on the 15cm side. Add DST to the right side in the 1cm areas created by the score lines. Mitre corners and fold in "hinges". Attach to page. Add the "Thankful" chippie as well as the wording from the AS as well as the bird from PP6118.
8 & 9	PP6110	2	10cm x 14,7cm	Cut page 8 and 9 together from the same sheet of paper.
				
10	PP6113	1	15cm x 19,5cm	With diamond side up, score at 5cm on the 15cm side and 14,5cm on the 19,5cm side.

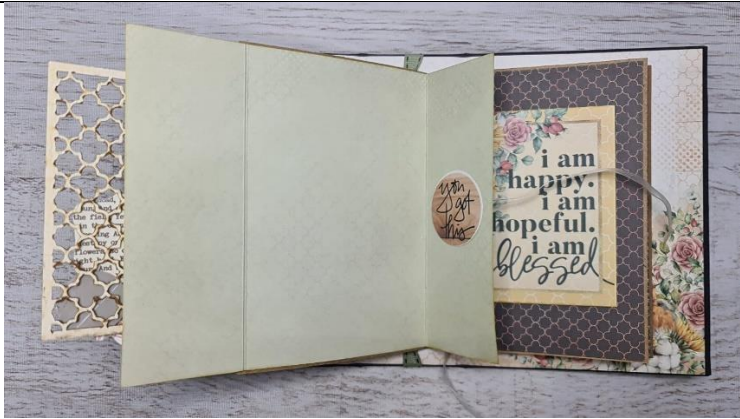

You will be left with something that looks like this. Do not throw the little triangles away.

				
11	Acetate Acetate PP6114 PP6113	1 1 1 1	11cm x 14,5cm 10cm x 13,5cm 10cm x 14,7cm 7,5cm x 9cm	LHS score at 1cm on the 11cm side. Apply DST to the acetate in the 1cm areas created by the score line. RHS score at 1cm on the 10cm side. Apply DST to the acetate in the 1cm areas created by the score line. Once the acetate “pages” have been added to the page, stick this piece over the “hinges” to hide the acetate attachment. Use the off cut from the frame. Attach to LHS acetate page. Embellish acetate pages as per photos. I used off cuts once I had finished the basic album for the decorating.
				
12	PP6112	1	20cm x 14,7cm	Score at 5cm and 15cm on the 20cm side to create a gatefold. Apply DST to the back of the middle piece (between the 5cm and 15cm score lines) to create a gatefold.
				

				 I added the "trellis" to create a closure for this gatefold.
13	PP6117 PP6116	1 1	10cm x 14,7cm 7,5cm x 20cm	Score at 10cm On the 20cm side (between journaling cards).  Apply DST to the bottom piece to create a flap.
14	PP6110	1	10cm x 20cm	Score at 5cm on the 20cm side to create a fold over flap. Apply DST to the right side on the smaller flap section.

				
15	PP6115 PP6114	1 1	10cm x 14,7cm 5cm x 16,5cm	Score at 1cm and 15,5cm on the 16,5cm side. Apply DST to the 1cm areas created by the score lines on the right side of the PP. To close off the pocket, apply a strip of DST to the RHS of the strip. Mitre corners. Fold in and tape to flap.
16	PP6109	1	15cm x 14,7cm	Score at 10cm on the 15cm side. Mat the journaling card from PP6116 on Sunflower cardstock and adhere to flap.
